RTTQA: Who are we?

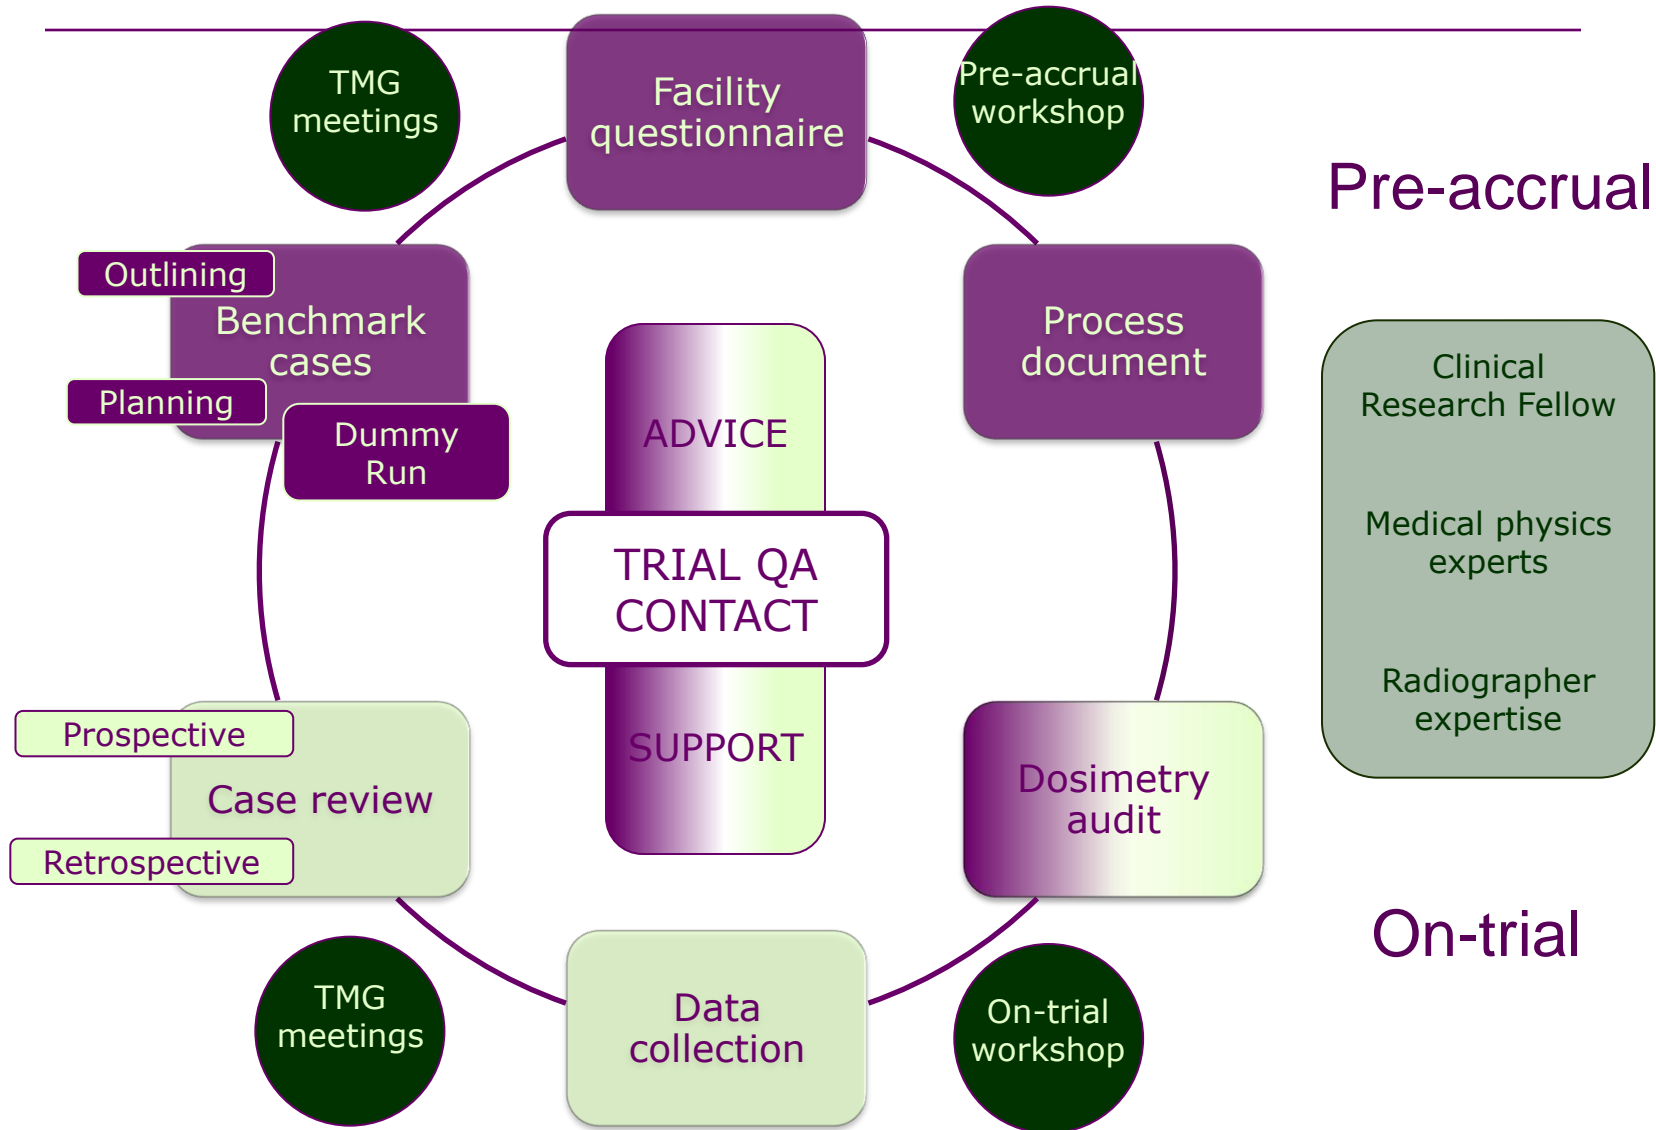

What do we do?

Design and implement QA programmes for all UK Clinical Research Network Portfolio trials that include a radiotherapy component

RT does not have to be the primary trial question

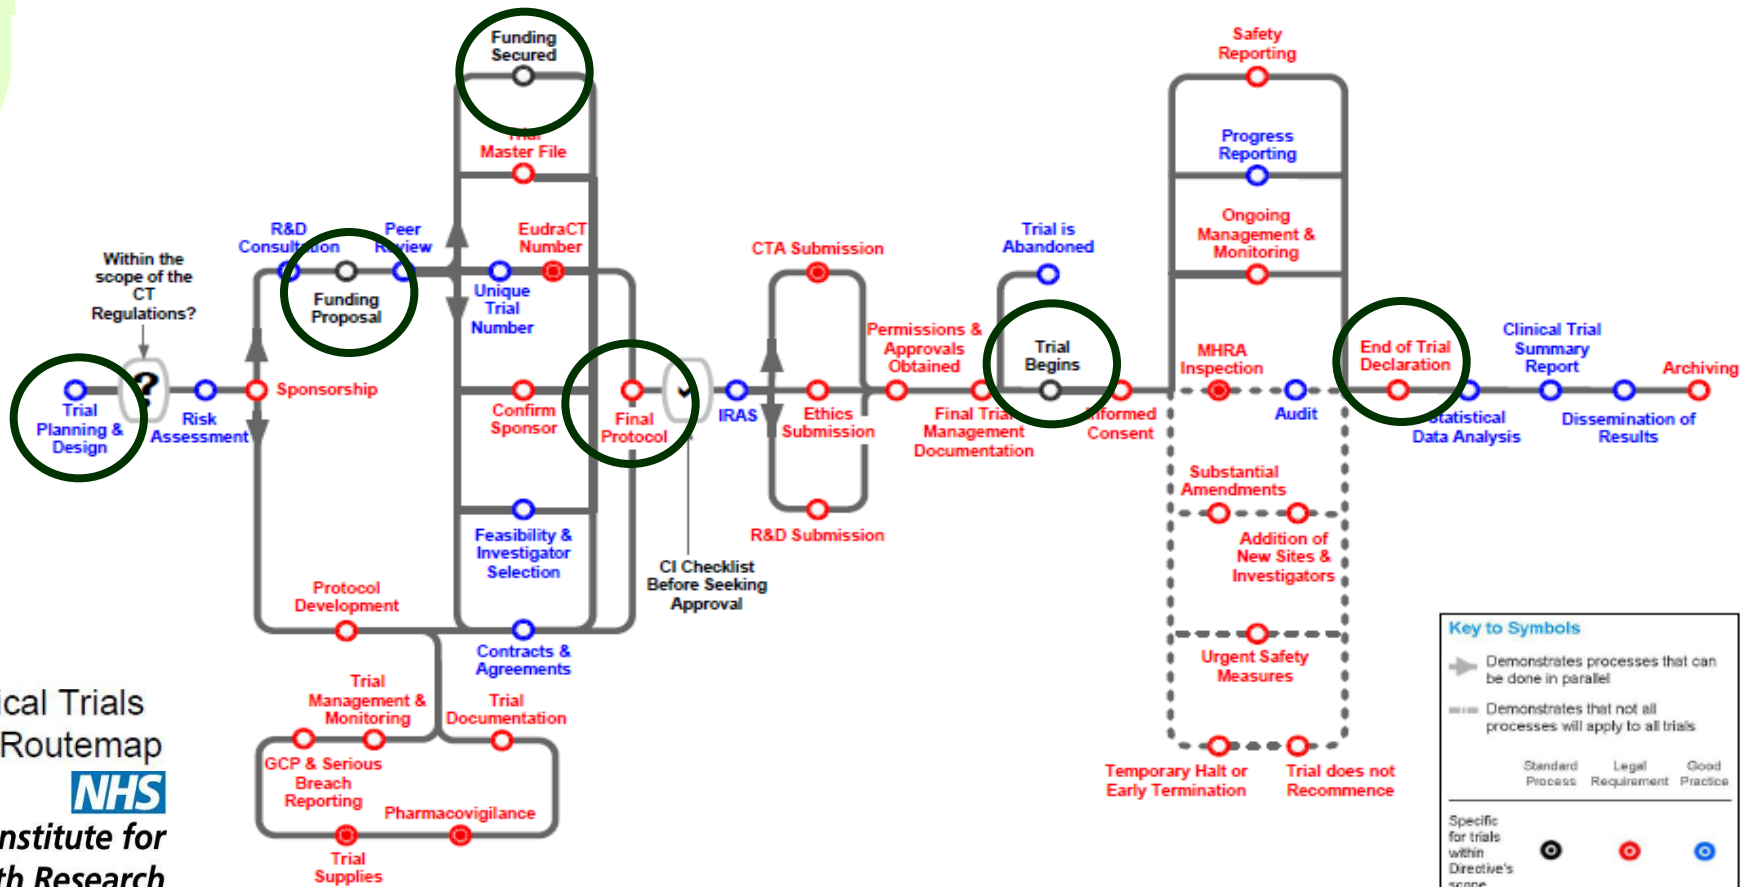

Undertake a programme of activities in relation to individual clinical trials necessary to ensure adherence to a trial protocol

How do we do it?

Where does QA fit into the trial process?

RTQA is now a recognised requirement for multi-centre trials

Where does QA fit into the trial process?
